For a business law class I'm currently taking. Hefty, 50+ chapters, a lot of content. Fact after fact

after fact ... not a lot of filler is this book. Can be a bit hard to read at the end of the day if one is tired after a long day at work, but that's the nature of the subject matter. Chapters are short, usually 10 - 15 pages of narrative text, but there's a few cases - some interesting reading - and some questions at the end of each chapter, which adds to the size of the book. Will keep this as a reference and to assist with CPA exam prep.

Very good tool for the class. As an engineer by undergrad and now pursuing my M.B.A., the language was a bit different than what I am used to, but nonetheless I have learned a great deal from the text.

The chapters are short enough to be easily digestible, yet long enough to cover a fair amount of information. The chapter summaries at the end of each chapter are very useful as well, as they cover the most importable topics of the chapter. One of the few books that I don't mind reading for class.

The back hard cover was broken off, binding came off before I opened the book. It got to be and it was falling off. I better not get charged for this!

I'm using this for a general business class. It's easy to understand and the chapters are quite short so it hasn't put me to sleep.

Enjoyed my Business Law class. Wish the book had the case briefs on one page.

The book was fine but it took too long to receive this book.

The books binding is falling apart
